

For ESP-07s pull-ups/down resistors are not required for RST, GPIO0, GPIO2 and GPIO15

To enable UART upload code, CH\_PD must be high. Keep one switch high.

TTL\_UART\_adapter\_iot\_postbox  
U2

[illegible]

LDO candidates could be ME6211 or MCP1700

```
ADC esp8266 max. 1v
Voltage divider with max. 4.333v BAT+
```
